

Control Center v17.1 IndigoPro®

Your security solution of choice.

Control Center IndigoPro® merges your choice of products, allowing a custom-tailored system design of cameras, encoders and NVRs. Performing reliably, IndigoPro® allows for quick response times and accurate incident management.

With IndigoVision's Distributed Network Architecture, IndigoPro® supports an unlimited number of client workstation installs and NVRs connected to the system; supporting continuous system growth whatever the future might bring.

Control Center is IndigoVision's effective, scalable and robust security management solution. It has an intuitive interface that provides easy system setup and efficient administration, saving you both time and money. Relentless testing and quality control 365 days a year ensure strong foundations for a robust, trusted security management offering.

IndigoPro® delivers:

- O Up to 80 Device Connections
- Unlimited Client Workstations
- Unlimited NVR Connections

Product Codes

Control Center	
IndigoVision Product CD/USB - Control Center Software 340	
IndigoPro® Single Device Connection License 340000-P	
IndigoLite® to IndigoPro® - Upgrade Single Device Connection License	345000-LP
IndigoPro® - Migration - Single Device Connection License	341000-P
