

IndigoVision

Mobile Center™

Control Center on the go

IndigoVision Mobile Center™ extends the surveillance capabilities of Control Center way beyond the control room. Security personnel can monitor their system remotely from any location over mobile and wireless IP networks using a mobile phone or tablet.

- Familiar touch and swipe gestures
- High quality real-time video
- Full PTZ control
- Listen to audio
- Save favourite views
- Send video snapshots via email
- Activate remote devices, such as a light switch or door release
- Available for Apple iPhone, iPad and Android compatible smartphones and tablets

Mobile Center™ Service Licence

Mobile Center™ connects to an IndigoVision Control Center database via the Mobile Center™ Service which is installed on a Windows server. Mobile Center™ Service authenticates users and gives them access to the cameras within the Control Center installation that they have permission to view.

Mobile Center™ Service requires a licence key attached to the USB port on the Windows server. The licence key determines how many mobile devices can be connected to the Control Center installation at any one time. The product codes for ordering the licence key are in the following table:

| | Without valid SUP contract | With valid SUP contract |
|--|----------------------------|-------------------------|
| Mobile Center™ Service dongle with one device licence | 311107 | n/a |
| Additional 1 device Mobile Center™ Service dongle upgrade | 311108 | n/a |
| Mobile Center™ Service dongle with 10 device licences | n/a | 311109 |
| Additional 10 device Mobile Center™ Service dongle upgrade | n/a | 311111 |
